

Quality That's GUARANTEED TOUGH®

DEWALT® was born on the jobsite with a mission to provide products tough enough for the most demanding pros. Products put to test under the most extreme conditions. At the end of the day, if it doesn't measure up, it doesn't get painted yellow. Good to know that when you choose DEWALT, you're investing in the quality, precision and durability pros wouldn't trade for anything.

#### WHY DEWALT®

See why millions of professionals choose DEWALT. From our rich history and proven performance to our focus on innovation and technology. From 1922 to present day DEWALT continues to design and optimize professional jobsite solutions - tools, accessories and service - to ensure absolute confidence for the toughest conditions. WE are DEWALT, and we are GUARANTEED TOUGH®.

#### WHY ARE DEWALT POWER TOOLS GUARANTEED TOUGH®?

We drop them. Cover them in dust. Abuse them.

We shake them for days. Speed them up and stall them out.

We let them run non-stop for weeks.

We freeze them. Put them through the worst weather.

We switch them on and off millions of times.

And we still expect them to run and perform every day.

Every tool must pass the toughest DEWALT TESTS before it even sees the market.

#### DEWALT® YELLOW & BLACK®. IT'S MORE THAN JUST A COLOR SCHEME.

Our tools and accessories are made to live on the jobsite. That's where they're tested. And if there's a problem, it's where we solve it. The result is products we can stand behind.

GUARANTEED TOUGH® SINCE 1924

## INNOVATION THAT MATTERS

DEWALT® is out there on the jobsite learning what works and what doesn't so we can make it all work better. Every innovation we make is driven by a desire to increase performance, ease of use, or productivity. We change a tool because the change makes the tool work better for the professional using it, not just for the sake of change. From technology used in space exploration and aircraft to incorporating Bluetooth® technology into our products DEWALT stays at the forefront of jobsite innovation.

## SUSTAINABILITY

At DEWALT, we are relentlessly developing and delivering packaging, products, and programs engineered to build a more sustainable tomorrow.

Serious Power without the Fumes... No gas to use.

DeWalt is active participant with call 2 recycle and Battery disposal
