

# MADE IN

Motivated by our 100-year family history in kitchen supply, we set out to rethink the kitchen landscape. We partnered with the best raw material providers and multi-generational, family-owned manufacturers in the USA and Europe to build superior culinary tools. With the guidance of the world's finest chefs, **Made In** products are designed to perform and crafted to last.

The end result is cookware worthy of a spot in both Michelin-starred restaurants and home kitchens. No matter the meal, what it's made in, matters. We're so excited you're here to cook with us.

## *The Ingredients Matter*

Our family history earned us relationships with some of the greatest craftsmen and manufacturers in the world, most of whom have storied histories of their own. It's how we became the first retailer to bring home cooks the finest china that has been produced exclusively for restaurants for over a century in Stoke-on-Trent, England. And it's why in Thiers, France, our Knives are forged by the 700-year-old family business that invented the modern Chef Knife.

## *Performance Obsessed*

The result is cookware that will perform to the highest standards of the finest Chefs, night after night. As we have earned their business, we rely on their expertise in the design and development of our product line.

We currently serve over 2,000 hospitality customers - including numerous Michelin starred restaurants and high-turn hotel concepts.
