

The TUMI Difference

Exceptional quality and high-performance products have made TUMI the leading International, lifestyle and accessories brand that travelers depend on consistently. This is what we call the TUMI Difference.

What Makes Us Different

Our elevated craftsmanship, durability and resiliency is in the DNA of everything we produce. We create products that are sustainable and feature exclusive materials, creating travel solutions for today and beyond. The following five principles guide us as we continually evolve, creating innovating and testing products to meet the needs of our customers.

Design Excellence

We seek it. We study it. Yes, we obsess over it. From aeronautics to automotives to sports — we're constantly inspired by the world's most innovative industries to create products that work for you. And with more than 125 patents to our name, our passion for forward-thinking is what keeps us ahead of the curve.

Superior Quality

At TUMI, all products are put through a combination of 30 unique tests, many of which we pioneered.

Tumble Test | Bags tossed in a tumbler 125 times, **Handle Jerk Test** | Pull/jerk handles to ensure it's secure, **Zipper Tensile Test** | Zippers that won't tear and **Mileage Cycle Test** | Smooth wheel operation to name a few.

Technical Innovation

We create products that incorporate the most advanced and state-of-the-art components to prevent problems from arising.

Functional Superiority

Our innovation doesn't happen in a vacuum. People inspire everything we do. That is why we take every product out into the real world to be assessed in multiple scenarios. Our products are put through comprehensive testing to ensure they will perform and endure. And, in the unlikely event you have an issue — we'll fix it.

At Your Service

We are experts at handling the unexpected and are always on standby with solutions and services.

Innovative by Nature Sustainable by Choice

TUMI products protect your belongings when you travel. Our planet is an astonishing place, and we believe it's our responsibility to preserve it for travelers of the future. By putting excellence and quality first, we are committed to creating quality TUMI products that have lifelong purpose, supported by our rigorous testing standards, recycled materials and global repair network.
